Aloe Ferox

DISTRIBUTOR TRAINING

We are now offering weekly online training courses. It is easy to join and become part of the virtual classroom in the comfort of your own home. Sessions are very flexible, but limited to ½ hour per session. Contact us on marketing@af.co.za or 028 735 8100 for more information on subjects covered and available time slots. We can forward weekly subjects and schedules via WhatsApp should you wish so – please indicate.

WEIGHT LOSS CHALLENGE

Aloe Ferox will be launching the 2nd healthy lifestyle, weight loss challenge on 1 March 2021. The challenge will run for 3 months. Registration opened on 18 January 2021. Request a registration form from wlc@af.co.za or register online at: www.aalwyn.co.za/wlc See the accompanying A5 pamphlet for detailed information. Participants can join a closed Facebook group where we post lots of support, tips and healthy meal and snack recipes.

Aloe Ferox® Quality Assurance

Aloe Ferox is a manufacturer and distributor of cosmetic goods and health supplements. Aloe Ferox works with and has membership with many South African and international companies, laboratories and authorities in the personal care industry, including CTFA. The Cosmetic, Toiletry & Fragrance Association of South Africa (CTFA) represents and promotes the interests of its member companies, liaises with government departments with regard to regulations and standards, and encourages responsible advertising through being an authoritative voice for the industry in South Africa. The Aloe Ferox health supplements are manufactured and packaged by Afriplex, a SAHPRA registered market leader.

SUPPLEMENTS

The protection seals currently fitted to the Aloe Ferox supplements are 100% airtight. It is therefore important to carefully consider air pressure during the application of these seals. Air pressure close to the coast is much higher than inland. Air that is trapped inside tablet/capsule containers (during packing) can expand significantly when exposed to lower air pressure. Some of the Aloe Ferox supplements that were manufactured during 2020 in Paarl (high air pressure), were unfortunately packed with excess air. As a result, the seals/container may swell/bloat slightly when shipped inland to higher air pressures. We are currently in the process of evaluating alternative SABS approved protection seals.

IMPORTANT

AFFECTED PRODUCTS HAVE BEEN TESTED AND LABORATORY ANALYSIS CONFIRMS THAT THESE TABLETS/CAPSULES ARE 100% SAFE, STABLE AND EFFECTIVE.

We are in the process of updating the labelling of the Aloe Ferox supplements. The following products will soon have a brand-new look. The content and ingredients of the products will remain unchanged.

ALOE MULTI PLUS is a unique blend of *Aloe ferox* extract and essential nutrients, vitamins, minerals and amino acids to supplement nutritional imbalances in the body and diet. Nutritional deficiencies may lead to continuous hunger pangs, irritation, restlessness, headaches, and aggression in some people. Correcting vitamin and mineral deficiencies can clear up certain food intolerances and allergies. Adequate vitamin and mineral intake can improve energy levels, strengthen immunity, as well as maintain healthy skin, hair, and nails.

APPETITE CONTROL contains the nutrient-rich green peel and the inner fillet of the aloe, as well as a powerful synergistic combination of 3 distinct herbs that support appetite control, thereby advancing weight management and weight loss:

- ✓ Green Tea suppresses appetite while increasing energy levels.
- ✓ African Bush Mango promotes weight loss.
- ✓ *Gymnema sylvestre* aids balanced blood sugar levels and reduced cravings.
- ✓ Essential trace element chromium, which is involved in normal insulin function and blood sugar levels.

BODYBASICS is a unique blend of *Aloe ferox* extract, essential nutrients and minerals, and Vit B2, B6, B9 and B12. Vit B6 and B9 may fight cardiovascular disease by lowering levels of homocysteine. Vit B6, B12 and choline contribute essentially to brain health and maintenance of a healthy nervous system. Inefficient metabolism leads to low energy levels, poor health, and problematic weight maintenance. Vitamins aid the absorption of essential minerals in the body. Essential minerals boost the metabolism. Zinc is critical to proper cell functioning and important to wound healing.

CALCI-BOOST contains a balanced combination of coral calcium and magnesium, essential to healthy and strong bones, as well as optimal bone building. A diet containing too little calcium may cause weakening of the bones over time. Supplementing calcium intake is linked to stronger, healthier bones. Coral calcium also contains magnesium and small amounts of trace minerals. Some experts suggest that this combination may be more beneficial to bone health. Magnesium is not only essential for optimal calcium absorption and deposition, but adequate magnesium intake is linked to higher bone density, improved bone crystal formation, and a lower risk of osteoporosis in females after menopause.

EVA is a unique blend of *Aloe ferox* extract and herbs that alleviate symptoms commonly associated with PMS caused by hormonal imbalance, and menopause caused by reduced oestrogen levels. Black Cohosh, Chaste Tree berries, Dong Quai and Wild Yam are herbs known to reduce menopausal symptoms. Balanced hormonal levels may improve menstrual cycle problems and pain, PMS, mood swings, sleep disturbances, joint pain and hypertension. Not recommended for nursing/pregnant women or individuals with a history of hormone dependant cancers.

VAL-U-LIFE is a unique blend of essential extracts, nutrients, minerals and vitamins:

- *Aloe ferox* extract – antiviral, antibacterial, antioxidant.
- *Sutherlandia frutescens* – immune booster in the treatment of chronic ailments such as HIV/AIDS, cancer and TB.
- Olive leaf extract, which aids weight management and improves cholesterol levels.
- Selenium, nutritionally essential for humans, and a constituent of more than two dozen selenoproteins that play critical roles in reproduction, thyroid hormone metabolism, DNA synthesis, and protection from oxidative damage and infection.
