ENGLISH: As a young girl, Lorraine de Vries enjoyed spending time tanning in the sun. After many years, the sun damage caused small skin cancers to appear all over her legs, ankles and feet. On August 27, 2020, the dermatologist decided to burn the growths because they kept on getting worse. (Photo 1) After the treatment, Lorraine immediately started using *FEROX GEL*.

On December 15, 2020, Lorraine took the second photo of her legs, without any sign of the skin cancers. To this day, more than 2 years later, she still applies *FEROX GEL* to her legs daily. She buys 2 tubes every month!

In May 2022, Lorraine wrote to Elsie, her Aloe Ferox distributor: "Please tell Aloe Ferox, the gel that I am using, the leafy gel, cured my skin cancer. The dermatologist couldn't believe what he saw and said it was a miracle!" – Lorraine.

AFRIKAANS: Lorraine de Vries het as jongmeisie graag in die son gelê om bruin te brand. Na baie jare het die sonskade velkankertjies oral op haar bene, enkels en voete veroorsaak. Op 27 Augustus 2020 het die dermatoloog besluit om die groeisels te brand omdat dit vererger het. (Foto 1) Na die behandeling het Lorraine onmiddellik begin om *FEROX GEL* te gebruik. Op 15 Desember 2020 neem Lorraine die tweede foto van haar bene, sonder enige teken van die velkankers. Sy smeer tot vandag toe, meer as 2 jaar later, steeds daaglik *FEROX GEL* aan haar bene. Sy koop elke maand 2 buise!

Lorraine skryf in Meimaand 2022 vir Elsie, haar Aloe Ferox-verspreider: "Sê asb. vir Aloe Ferox, die jel wat ek gebruik, die blaar-ene, het my velkanker genees. Die dermatoloog kon nie glo wat hy sien nie en sê dis 'n wonderwerk!" – Lorraine.
